

Leadership Now

The Newt Gingrich Record...

- **Balanced Budgets.** Newt is the only candidate who has balanced the federal budget. And he kept it balanced four years in a row, paying off over \$400 billion in federal debt.
- **Job Creation.** Over 8 million jobs were created during Newt's Speakership.
- **Tax Cuts.** Including the largest capital gains tax cut in history.
- **Welfare Reform.** Over 2/3 of welfare recipients got a job or went to school.
- **Smaller Government.** First reduction in discretionary spending in 27 years. Federal workforce declined 10%. Kept federal spending at 18.5% of GDP vs 25% under Obama.

Doesn't this sound like leadership we could use again?
